FIGURE 28C

FIG. 28E is a cross-sectional view of the device 100 taken along the line 11-11 of FIG. 28D. The device 100 includes a central lumen 102, an inner wall 104, an outer wall 106, and a middle layer 108. The device 100 is shown in a cross-sectional view, with the central lumen 102 being a circular opening. The inner wall 104 is the innermost layer, followed by the middle layer 108, and the outer wall 106 is the outermost layer. The device 100 is shown in a cross-sectional view, with the central lumen 102 being a circular opening.

FIGURE 28E

FIG. 28F is a cross-sectional view of the device 100 in a second position, showing the device 100 in contact with the tissue 102. The device 100 is shown in a cross-sectional view, with the outer sheath 104 and the inner catheter 106. The device 100 is shown in a cross-sectional view, with the outer sheath 104 and the inner catheter 106. The device 100 is shown in a cross-sectional view, with the outer sheath 104 and the inner catheter 106.
